Our Resilient Clemson Family

Amid these unprecedented times, the Clemson SCIENCE Family continues to accomplish great things that are important to celebrate. I am proud to share with you some good news from the Clemson University College of Science.

For developing methods to manufacture carbon nanotubes. Assistant professor Kara Powder received a coveted NSF CAREER grant.

Dr. Anuradha Vuller was recently named a 2020 Fellow of the Materials Research Society for developing liquid-based electricity that potentially makes it a next-generation semiconductor.

Dr. Thomas Seifert Clemmens was selected as an inaugural inaugural endowed lecture series in the School of Mathematical and Statistical Sciences that will draw speakers from math or statistics who address challenges encountered by scientists or engineers in the materials field. Rao is the first faculty member at Clemson University professor Apparao Rao of the Department of Physics was selected to receive the Materials Research Society’s Distinguished Service Award in 2020.

Here are highlights from the last few months:

Clemson researchers receive seed grant from Prisma Health.

Our Resilient Clemson Family

Among these unprecedented times, the Clemson SCIENCE Family continues to accomplish great things that are important to celebrate. I am proud to share with you some good news from the Clemson University College of Science.

To our alumni and friends, we hope that you and yours are well and safe. Thank you for your support of the College of Science. We encourage you to stay connected with your college and support of the college.

Graduating seniors who will finish their undergraduate careers in this way, I hope you emphasize adaptability as they finish their semester in the best manner possible. If you know any of our alumni who are serving communities as health professionals and in other essential roles, please let me know. They are heroes of our time.

The lives of so many students have been upended, and we are amazed at their positivity and resilience. Our Resilient Clemson Family...
