Announcements

FY22 is Closed!

The Internal Controls & Accounting (ICA) central office is pleased to announce the allocations process in OFC has been completed. This means that your FY22 revenue and expenses have been allocated back down to the FinUnit and Project level in account 300000. Summary reports have been updated to pull directly from the 300000 account. FY22 is officially closed!

Attention Oracle Users: Your Feedback is Needed!

On Monday, October 17, all users of Oracle in the past 365 days should have received an email from VC/CFO Pierre Ouillet inviting them to participate in the finance systems feedback survey. **While the survey is distributed on a quarterly basis, the October survey features updated questions, including specific questions on training needs and optimization priorities.** This ongoing feedback is essential to let us know what we can improve from a user perspective so all remaining issues are addressed. The survey is open through **Monday, October 31, 2022**. Please encourage all fiscal staff who received the survey to complete and submit their responses. Thank you!

Next Generation Network (NGN): NGN5 Recharge Rate Schedule Published to Blink

The Next Generation Network (“NGN”) provides enhanced communication services and technology, including:

- Data connections and internet bandwidth
- Expanded help desk services
- Network security services
- Email, active directory and other network services

- Voice lines and feature packages
- Network repairs and upgrades
- Wireless equipment and services
- Unlimited international long-distance charges for the top ten countries (see ngn.ucsd.edu for more information)

These services are primarily funded through a monthly recharge rate that utilizes payroll data to charge for employees that consume NGN services (called Communication Users). NGN recharge rates have historically been approved in phases of 5-year rate schedules, with the first phase dating back to 2001. **The below rates reflect the 5th phase (NGN5) of NGN rate scheduling and reflect a 5% year-over-year uplift to the rates, effective for September 2022 NGN recharges (to be posted in the accounting period of October 2022).**

Please note - there is currently an effort underway to align NGN recharges to post within the same month as the corresponding payroll posting:

Central Office Processing Status for Travel Expense Reports

When you login to Concur, an initial pop-up window appears which now provides you with the current processing date that the Travel & Expense Team is auditing. It's best practice to check that date in the pop-up window, instead of submitting a Services

& Support case inquiring about the status of your Travel Expense Report. Please be aware that the submit date and the processor start date might be different so please review your Audit Trail to see when your Financial Unit Approver approved the expense report. Once the necessary approvals have taken place, it will land in the Central Office queue.

Login Warning

Welcome to UCSD Concur!

NOTE: The Travel team is reviewing expense reports entering their workflow on October 3rd, 2022. Thank you for your patience as we are experiencing a high volume of transactions.

Happening Soon!

Concur will be clearing out the Most Recently Used section from the drop-down search menu for all GL chart string, project, and approver fields. This effort is aimed towards removing outdated, invalid chart string/project values that may be sitting in users' Most Recently Used section

Campus Budget Office Updates

Updated FY23 Final Budget Data Loads to OFC, Budget vs. Actual Report Changes

On 8/19 CBO loaded FY23 Final Budget Data to OFC with All Funds (Core and select Non-Core) as annual amounts posted to Jul-22 in alignment with the Campus no longer allocating Core Resources on a monthly (1/12) basis.

In order to deliver more meaningful budget reports reflective of seasonality as planned in EPBCS, we've reloaded budgets on Non-Core Funds to each relevant fiscal period. This year's change in allocation strategy, and corresponding budget period alignment, is specific to Core Funds only.

The underlying data itself has not changed. However, the Non-Core budgets are again spread across each fiscal period July - June whereas Core Funds Budgets remain as an annual lump sum amount in July.

In line with this change, the BvsA report has been split into two versions:

- The Budget vs Actual Report – Core Funds, which compares Annual Budget against YTD Actuals.
- The Budget vs Actual Report – Non-Core Funds, which compares YTD Budget against YTD Actuals.

A legacy version of the report remains available for historical reporting on FY22 and prior fiscal years. For more on the new Budget vs Actual reports, checkout this [Blink Assist page](#).

Going on Foreign Travel or Long-term Travel?
