A Treasure Trove of Logistics Services at University Centers

Congratulations to Integrated Procure-to-Pay Solutions (IPPS) Logistics and Housing for Sustainability for their efforts in transforming mail and parcel services with advanced technology, increased safety, and a focus on sustainability.

The Trove is a public-facing postal annex that serves the personal shipping and mailing needs of the University of Southern California (USC) community. The Grain2.0 Carbon Neutral Last Mile Initiative is on track to support a 100%-electric distribution fleet by 2025. To offset the energy required to charge these vehicles, IPPS and HDH are revisiting competitive, university-contracted shipping rates to all clients. Stop by today to mail a package or complete a request at this convenient location.

Support Our Small Business

Small Business First is a win-win! It streamlines the procurement process and supports the local economy. Combined with Strategic Sourcing and Direct Buy Initiatives, Small Business First Strategy is an effort to support our small business partners. In addition to working with Minority and Veteran Business Enterprises, IPPS for Sustainability is working on initiatives to support Disabled Veteran Business Enterprises, wherever practicable.

Small Business First Strategy includes consultation, custom configuration, refurbishing, delivery, and installation. The Surplus Custom Furniture Program simplifies the process of reusing furniture that is not long-term, which reduces the environmental impact, cost, and time required. Surplus Sales recently expanded on this program by partnering with the Environmental Protection Agency. A Treasure Trove of Logistics Services at University Centers
