**Fund Management Office Hours**  
**Thursdays, 11:00am - 12:00pm**  
This week we will have an open Q&A. Bring your questions and struggles. Nothing a fund manager does is off the table. Trying to figure out the source of a GL-PPM discrepancy? Can’t figure out how to get your direct retro with cap gap to work? See a wire you need to claim but have no idea what to do next? Bring your issue to office hours and phone a friend.

Next Thursday, Deston Halverson, Director of Sponsored Projects Finance, will answer all of your questions about ECERTs. Effort certifications for FY21 JUL-DEC, FY21 JAN-JUNE, FY22 JUL-DEC reporting periods must be completed by April 30, 2021.

**Updated KBA: How to Resolve Alerts in Concur**

We added new guidance on two alerts appearing in Concur. As a reminder, unlike alerts with a red icon, alerts with a yellow icon provide information to the user and approver but does not prevent the Concur document from being submitted. Here is an example:

*INFORMATIONAL: This expense entry may be a duplicate of the following expense. This will NOT prevent the Expense Report from being submitted.*

Concur automatically checks for expenses whose entry details appear identical in order to prevent duplicate reimbursement or claim of the same expense. This alert is to prompt the user, delegate or approver to review those expense entries and either ensure that they are true, separate expenses or take action to correct/remove the duplicate expense entry when applicable. If you are certain that this is not a duplicate, no further action is required and you may proceed with processing the Conur document.
