NGN Recharge Rate Increase for Communication Users

A flat monthly charge is levied automatically for each campus employee who qualifies as a **Communication User**, as determined by the employee's payroll title code. A campus-wide committee evaluated every job title and determined whether the majority of its constituents did or did not qualify. Employing the "Communication User" category as a basis for charging is not meant to be a precise reflection of individual use, but rather a fair mechanism for aggregating and averaging communications charges over departments.

Rates for the next 5 year agreement are currently pending. In the meantime, please plan for a 3% general increase - see [NGN Communication Access Billing](#) for more information.

Communication User Groups	16/17	17/18	18/19	19/20	20/21	21/22
On-Campus	\$92	\$94.30	\$94.30	\$96.37	\$98.49	\$101.44
Off-Campus	\$46	\$47.15	\$47.15	\$48.19	\$49.25	\$50.73
Med Center	\$33	\$33.83	\$33.83	\$34.57	\$35.33	\$36.39
Graduate Students	\$28	\$28.70	\$28.70	\$28.91	\$29.55	\$30.44
Public Computer Labs	\$24	\$24.60	\$25.00	\$25.14	\$25.69	\$26.46

Summer Salary Composite Benefit Rate Incorrectly Charged

Unfortunately, the fix for this issue that was to be effective July 1, 2021 is not working as expected. UCPATH Center is currently investigating this issue. As of FY2021, credits will be provided centrally in Oracle only; the target is now the August accounting period.

In next week's Fund Management Office Hours on **September 9**, we will focus on the question of how to find your “available to spend” balances on gift funds and other general projects, which reports you can use to find that information, and why different reports might show different amounts.

Requisition Status in Oracle Procurement

Check the status of your requisition by clicking the *Pending Approval* link on the requisition page. The current step is the last step in blue which does not have a checkmark next to it. If the step is preceded by a number, then it is pending the approval of your financial unit. Refer to our [How to Check Requisition Status in Oracle Procurement KBA](#) for more information and tips.

Reassign Requisitions in Oracle Procurement

You can reassign a requisition to allow someone else to complete and submit the requisition, process change orders, or cancel the PO. Refer to our [How to Assign a Shopping Cart or Requisition in Oracle Procurement KBA](#) for instructions on how to do so.

Resolving COA/POETAF Failed Validation Errors in Concur

After a Request or Expense Report is submitted, chart string information is validated against data in Oracle before entering the approval workflow. Should you encounter errors related to the COA/POETAF information entered in your Concur document, refer to our [How to Resolve COA/POETAF Failed Validation Errors KBA](#) for guidance. The Knowledge Base Article provides a list of common validation errors with a description for each error type, as well as instructions on resolution steps.

Available Expenses for Travel in Concur

Concur displays anything booked in Concur or with Balboa Travel as an *Available Expense*. You might see reservations along with purchases made with our CTS Air & Hotel card or your own Travel & Entertainment Card (T&E card). Purchases on a UC card product like the T&E Card will be clearly identified in the *Payment Type* column. Reservations, including anything sent to your Triplt account or personal bookings, may show up as a *Payment to Employee* and can be deleted if needed.

Each Tuesday, the Weekly Digest provides important updates related to Budget & Finance, including Oracle Financials Cloud and Concur Travel & Expense.
