West Chester University (WCU) continues to monitor the Novel Coronavirus (COVID-19) and has notified students of the measures in place to help prevent the spread of the virus. We have been made aware that some students who have remained in the Borough of West Chester are engaging in social distancing, practicing regular hand-washing, and avoiding large gatherings.

The goal of social distancing is to substantially decrease the number of situations requiring personal contacts in order to minimize the spread of respiratory illnesses and COVID-19.

We are expecting students living off campus to refrain from hosting social gatherings that require all of us to exercise conscientious behavior and compassion toward one another.

Individuals engaging in social distancing

- practice social distancing of maintaining a 6 foot distance from others as much as possible.
- wear a facemask when in close contact with others.
- stay home if you have symptoms of an illness.
- practice good hygiene by washing your hands thoroughly with soap and water.
- keep social gatherings to no more than 10 people.
- avoid large crowds and gatherings.

The COVID-19 pandemic is a global health emergency that requires all of us to exercise conscientious behavior and compassion toward one another.

We are committed to keeping you healthy.

WCU’s Student Health Services Department is always ready to come to your aid.
