We will certainly miss Dr. Brock’s clinical excellence and leadership as she embarks on new endeavors. Her research was recognized at the national level by presenting at the 2019 annual spring Society for Ambulatory Anesthesia. This research led to several posters and publications showing how her research improved patient outcomes and reduced hospital admission rate. Also, CSSC had four Joint Commission Surveys - two with zero citations, two with minimal citations. These surveys demonstrated the high standard of care provided by the center.

Christopher Canlas, MD, would like to recognize Jane Brock, DO: We want to recognize good work when we see it and encourage our colleagues to recommend our next GEM. Do you know someone who has demonstrated excellence in their work? Let us know the details so that we can recognize that person for a job well done.

Department Achievements

- April 2020 Department Meeting
  - Theme: Flexner Discovery Lecture Series
  - Date: Tuesday, May 5, 2020
  - Time: 12:00 PM - 1:00 PM
  - Location: Virtual

- Upcoming MOCA® Courses for 2020
  - May 22, 2020
  - June 19, 2020
  - July 18, 2020
  - August 15, 2020
  - September 12, 2020

- Spring 2020 Flexner Discovery Lecture Series Schedule
  - April 2020
  - May 2020
  - June 2020
  - July 2020
  - August 2020

- Successful completion of this CME activity enables the participant to earn up to 7.5 CME credits.

EndNote (citation management software). To request help with preparing your manuscript for submission, please contact Yvonne Poindexter at (615) 936-2454 or email mark.j.rice@vumc.org.

The Vanderbilt Physician Parent Group exists for mutual support and can be joined at any time. If you or someone you know are interested, please contact Catherine Clark at catherine.clark@vumc.org.

The Department is grateful for the excellent response by clinicians and nonclinical staff to the hardships introduced by the COVID-19 crisis. A support team is actively working to assist colleagues in need. Additional resources and information are available here.

Message Regarding Clinical Research

- The Department is committed to the safety of our research staff and investigators.
- Controlled substance CDRs were changed to comply with industry standards.
- Clinical trials and research activities that do not require face-to-face interaction with subjects as well as analysis of data from completed clinical studies are continuing.
