

Your one-stop-shop for pre-health news and updates!

UP Updates

The Pre-Health Advising Team, Becca Henley and Dr. Kyle Flann, want to wish you the best of luck as you wrap up this weird Spring semester! We will be around during the summer so feel free to keep reaching out with your pre-health questions! We hope that you and yours are well and safe at this time.

-Becca and Dr. Flann

[Health Professions COVID-19 Related Links and Information](#)

Please take a moment and look through this page the National Association of Advisors in the Health Professions has put together to **help you easily find the information about how your particular professional program may be affected by COVID-19**. These links are being updated as often as possible so it may be a good idea to bookmark the links that pertain to you for future reference. These links are very important for those of you planning to apply this upcoming cycle to any of these programs.

MCAT UPDATES

Please note that as of today all MCAT tests from March 27th - May 21st have been canceled globally. More cancellations may be coming in the future and you will get email communication directly from AAMC if this directly impacts you. [To stay up to date with the latest on the MCAT and COVID19 please see the website the AAMC has put together.](#)

If you are registered for another type of entrance exam please make sure you are looking for direct communication from the testing company for further instructions during this time.

Are you Taking an Entrance Exam This Year?!

MCAT? DAT? GRE? PCAT? OAT?

If you are taking any entrance exam in the next year please [email Becca](#) and let her know the date you register for and the test you are taking so we can add you to the Pre-Health Testing Calendar! We want to cheer you on as you study and help you find other people who are working towards the same goals to connect with this year. We also want to celebrate with you when you're done - and we don't know when you're taking these tests unless you let us know!

Off Campus Highlights

- [See this awesome document that was created cooperatively by members of the National Association of Advisors for the Health Professions with many ideas of things you can be trying during this time](#)
- You're invited to attend a virtual joint information session to learn more about the OHSU PA and MD programs Tuesday April 21st at 6pm. [Click here to join the meeting \(opens 15 minutes prior to start of session on the 21st\)](#)
- [You're invited to the 2020 ADEA GoDental Virtual Fair \(#GDVF20\)](#) on Tuesday, May 19 from 11am -6pm PDT!
- Tuesday April 21st at 11am PDT - [navigating the 2021 Application Cycle for Applicants Webinar hosted by the AAMC](#)
- [Intern - Access Solutions Patient Journey Guidance and Strategies](#) - apply by 5.1.2020
- [April 23rd, 2020 9:15am - 2pm PDT - AACOMAS will be hosting a virtual session, Exploring Osteopathic Medicine, for pre-med students.](#) You need to register for this event.

Test Prep Question of the Day

This week's test prep question comes from the MCAT:

Hypertension (high blood pressure) can be diagnosed by having two or more blood pressure readings higher than 140/90 on two different occasions, separated by a week. Suppose that the criteria were changed to include anyone with a reading higher than 130/80 on at least one occasion. How would this change the prevalence of diagnosed hypertension in the population?

A. The prevalence would increase.

- B. The prevalence would decrease.
- C. The prevalence would remain the same.
- D. There is not enough information to determine the change in prevalence.

Answer is at the very bottom of the Newsletter!
