The eighth annual Undergraduate Research Symposium Bigger Than Ever Operandi

UROP has recently interviewed two undergraduate researchers as part of their regular series UROP Funding Opportunities

February 2018. She will be overseeing all post-awards functions and will serve as the lead on audits and compliance. Carrie Chesbro is the new Associate Director of Post Award. She has been serving as the Interim AD since 2017.

Jon Loftus has been promoted to the newly developed Post-Award Manager position. Jon will be responsible for working with the OVPRI Post-Awards Director and the Office of Research Compliance to ensure compliance and integrity with federal and state regulations. Jon is also responsible for developing strategies to improve the post-awards process.

Staffing Updates

The Office of the Vice President for Research and Innovation (OVPRI) offers a range of career opportunities, from administrative positions to research-focused roles. Whether you're interested in grants administration, research development, or innovation, OVPRI has a position to fit your skills and interests. Contact us at vpri@uoregon.edu or 541-346-2090 to learn more about the opportunities available.

The University of Oregon celebrated the launch of the first Oregon National Academy of Inventors (NAI) chapter

The Oregon National Academy of Inventors (NAI) was founded in 2010 to recognize and encourage inventors with patents issued from the U.S. Patent and Trademark Office. The Oregon NAI chapter was launched in 2018 to promote excellence in research, the patents our inventors have received, and the positive impact their contributions make worldwide. This chapter will provide a platform for Oregon inventors to network, share best practices, and promote the importance of innovation and invention.

UO Launches National Academy of Inventors Chapter

The University of Oregon recently launched the first National Academy of Inventors chapter in Oregon. The chapter aims to promote excellence in research, the patents our inventors have received, and the positive impact their contributions make worldwide. To celebrate the launch, a special event was held on campus featuring speeches from President Michael K. Michael, Vice President for Research and Innovation David Conover, and other university leaders.

Undergraduate Student Advocates for Research Funding

Undergraduate biology student Natalie Mosqueda uses blue dye to stain the bones of developing zebrafish larvae. This research is part of her efforts to understand motor neuron development in vertebrates using the zebrafish model. Natalie is working with Dr. Kelly Sutherland, a biologist at the University of Oregon. In addition to her research, Natalie is an active member of the National Research Mentoring Network and is committed to creating an inclusive and supportive research environment.

The Oregon NAI chapter will provide a platform for Oregon inventors to network, share best practices, and promote the importance of innovation and invention. To learn more about the Oregon NAI chapter, visit their website at oregonnai.org.
