majors.

The eighth annual Undergraduate Research Symposium Bigger Than Ever Operandoi UROP has recently interviewed two undergraduate researchers as part of their regular series A Closer Look at Undergraduate Researchers

UROP Funding Opportunities

Staffing Updates

President for Innovation. We're proud to be a part of this organization, which will allow us to recognize and encourage the many UO innovators, both past and present, for their groundbreaking work in research, the patents our inventors have received, and the positive impact their contributions make worldwide,” said Chuck Williams, associate vice president for research and innovation. “It’s important for the university to have money to give to students to do their research,” Cleveland said. “But there’s a clear need for more support to help students pursue their research projects in fields like science and engineering.”

Catalyzing Advocacy in Science and Engineering (CASE) University of Oregon formally joined NAI last year. NAI is a member organization with strong representation by AAU institutions that supports academic inventions and the societal impact of university research. The NAI was founded in 2010 to recognize and encourage inventors with patents issued from the U.S. Patent and Trademark Office. The Oregon National Academy of Inventors (NAI) chapter will hold its inaugural meeting on May 28th.

The Oregon Day for Research & Serving Ourselves (DOS) initiative is a unique partnership between the Office of the Vice President for Research and Innovation (OVPRI) and the Office of the Vice President for Student Affairs (OVPSA). The initiative provides funding for students to engage with researchers and other campus members to learn about research, develop new skills, and create opportunities. The DOS initiative is supported by the Office of the Vice President for Research and Innovation and Office of the Vice President for Student Affairs.
