Dear Members of the UO Research Community,

The eighth annual Operandi UROP has recently interviewed two undergraduate researchers as part of their regular series A Closer Look at Undergraduate Researchers. The interviews can be found on the UROP website.

Staffing Updates

Carrie Chesbro is the new Associate Director of Post Award. She has been serving as the Interim AD since 2017 and will be responsible for the day-to-day transactional work and management of the post-award teams.

Jon Loftus has been promoted to the newly developed Post-Award Manager position. Jon will be responsible for creating an inclusive and supportive research environment.

The University of Oregon celebrated the launch of the first OAI chapter. The University of Oregon is one of 240 AAU institutions that supports academic inventions and the societal impact of university research.

The University of Oregon is among the first institutions to join the National Academy of Inventors (NAI) chapter. The NAI was founded in 2010 to recognize and encourage inventors with patents issued from the U.S. National Academy of Sciences.

The University of Oregon received 25 new awards totaling more than $2.8 million in support of research activities during the month of April 2018. Faculty and staff at the University of Oregon received 25 new awards totaling more than $2.8 million in support of research activities during the month of April 2018.

The NAI will host a workshop on May 24-25 training graduate students and postdocs who will mentor a SPUR student this summer. The workshop will discuss strategies for creating more impactful SPUR experiences.

Rachel Cleveland was the only AAS CASE workshop attendee from Oregon. Cleveland’s attendance was sponsored by the CASE program, which is funded by the National Science Foundation.

One of the main talking points when Cleveland went to talk with her representatives was to give examples as to why she benefited from her funding. "It's important for the university to have money to give to students to do their research," Cleveland said.

UO environmental science student Rachel Cleveland recently traveled to Washington D.C. to attend the CASE workshop, which is hosted by the American Association for the Advancement of Science (AAAS). Cleveland's attendance was sponsored by the CASE program, which is funded by the National Science Foundation.
