January 30, 2018

Dear Members of the UO Research Community,

Letter from the Vice President

Vice President for Research & Innovation,
David Conover

Dear Members of the UO Research Community,

I hope you will join me in congratulating our own Judith Eisen on her recent election into the American Association for the Advancement of Science (AAAS) Fellows class of 2018.

Ms. Eisen is currently our Vice President for Research and Innovation and has been an integral part of our university community since her arrival in 2011. She has been a mentor to our students — not to mention one of the kindest people you will ever meet. Ms. Eisen has been a strong proponent of science outreach and has actively engaged with the public to help us all understand motor neuron development in vertebrates using the zebrafish model and research examining neural crest development. Additionally, she's been a strong proponent of science outreach and an amazing mentor to our students.

There are over 3,800 AAAS Fellows worldwide, one of whom is elected each year by their peers, on the basis of their contributions to science and technology and their demonstrated records of innovation. Ms. Eisen’s election is the result of her continued dedication to her work and to the University of Oregon — the state’s only Association of American Universities member. Research, scholarships, and innovation are core components of our mission and, thanks to President Costa, we are poised to be one of Oregon’s most innovative institutions.

Please join me in congratulating Judith Eisen on her recent achievement. We are lucky to have her as a member of our community and we are thrilled to see her recognized in this way.

Sincerely,

David Conover
Vice President for Research and Innovation

UROP has recently interviewed two undergraduate researchers as part of their regular series

UROP Funding Opportunities

February 2018. She will be overseeing all post-awards functions and will serve as the lead on audits and

Carrie Chesbro is the new Associate Director of Post Award. She has been serving as the Interim AD since

Jon Loftus has been promoted to the newly developed Post-Award Manager position. Jon will be responsible

Staffing Updates

Dear Members of the UO Research Community,

I would like to share some staffing updates.

Dr. Judith Eisen has been selected as the Executive Director of the Oregon Advanced Research Institute.

Last summer, the University of Oregon formally joined NAI last year. NAI is a member organization with strong representation
