Undergraduate Student Advocates for Research Funding

The NAI was founded in 2010 to recognize and encourage inventors with patents issued from the U.S.

The Oregon National Academy of Inventors (NAI) was founded in 2010 to recognize and encourage inventors with patents issued from the U.S. and inventors with pending patents. The NAI has grown to over 400 chapters with over 15,000 members. A key goal is to support and grow an effective national network of chapters providing UO President Michael Dahlstrom and OVPRI Director Bill Carr among those inducted.

Rachel Cleveland was the only AAS CASE workshop attendee from Oregon during a recent ceremony that included the induction of more than 40 UO patent holders. The workshop, which is hosted by the American Association for the Advancement of Science (AAAS), provides an opportunity for inventors with patents from the UO to connect with government officials and policy makers.

Rachel Cleveland recently attended the National Academy of Inventors (NAI) Board of Directors meeting in Washington D.C., where University of Oregon President Michael Dahlstrom and OVPRI Director Bill Carr were among those inducted into the Oregon National Academy of Inventors.
