A Message From NHF Colorado

Dear Community,

We live in a very different world than we did only a month ago. The world has changed, and it will never be the same. Each day we are faced with making decisions that are intended to protect your health and safety.

We are here to serve YOU. We are here to serve our patients, our families, and our community. We are here to make sure that our patients receive the best possible care.

We are living in unprecedented times. For many of our families, our patients, and our community, life looks different from your friends and neighbors. Routine health matters can become profoundly complicated.

Our families with bleeding disorders are accustomed to unprecedented circumstances. Your daily life may look different from your friends and neighbors, but we are committed to supporting you.

Together in wellness,

Pam Jones
Executive Director, NHF Colorado
