What We Do: Innovating Programs and Park Experiences

Dear Friend,

Thank you to all those who have joined and supported our work in the past few weeks. We count on your membership to fund our current programs and the varied projects that enhance your experience in Oregon's parks and forests. The past year, OPF was able to have a significant effect on restoring the natural beauty of our state replanting over 500,000 trees with our **Wildfire Replanting Fund**; on getting kids outdoors – kids

who will be the future stewards of the land. We have provided outdoor access via electric all-terrain wheelchairs for people with mobility challenges. Yet, there is so much more we want to accomplish in 2023 and your membership makes it possible.

Won't you join now and help us:

Protect and upgrade parks' existing facilities and amenities – By improving park facilities and creating innovative programs, park visitors, especially children, will have more meaningful experiences, leading to lifelong connections to our parks and forests.

Increase access to parks & forests for all – By providing electric **all-terrain Track chairs** for people with limited mobility we are making the outdoor joys more accessible for more people. Adding amenities such as **bike-hike shelters** where campers can recharge their phones, fix bikes, and have a locker for food and valuables, will make stays longer and more enjoyable.

Provide healthy outdoor activities – Our Track-Trails Program has activities to get kids unplugged and outdoors to encourage them to look closely at the nature around them.

Educate the future stewards of our public lands – such as our **Ticket2Ride**, covering transportation for underserved schools to visit our parks and at the **Cottonwood Crossing Summer Institute** programs scholarships help kids learn about solar energy.

We hope you will remember how much Oregon's parks and forests mean to you and future generations, when considering your giving this year. **Please make a gift today** to help us enhance the experience at Oregon's parks and forests – there is no substitute for enjoyable experiences in our parks and forests.

Thank you for being our partner for parks and donating generously.
