Carnegie Mellon Portugal 

Call for Dual Degree Ph.D. Programs

All information at:
www.cmuportugal.org

2 years at Carnegie Mellon University (CMU) + **3** years at a Portuguese university

Until December 9th, 2021 (11:59 a.m., EST)

- Computer Science
- Robotics
- Language Technologies
- Software Engineering
- Human-Computer Interaction

Until December 15th, 2021 (11:59 a.m., EST)

- Engineering and Public Policy

Until December 31st, 2021 (11:59 a.m., EST)

- Electrical and Computer Engineering

Last days to apply to our 2021 Call for up to 10 Dual Degree Ph.D. Scholarships

The CMU Portugal Program and FCT have an open Call for up to 10 Dual Degree Ph.D. scholarships for the 2022/2023 academic year in ICT related areas. Applications to these scholarships are still open and must be submitted online directly at CMU.

All information available on our website.

Minister Manuel Heitor at CMU with Portuguese Delegation

On November 29th and 30th, the Portuguese Minister of Science, Technology, and Higher Education, Manuel Heitor, will visit CMU campus in Pittsburgh. The official visit will create an opportunity to discuss CMU Portugal

initiatives to foster industry-science relationships as agents of change, focusing on data economy and research for social and economic impact. The afternoon of the first day will be marked by three workshops addressing the Program's Large-Scale Collaborative Research Projects topics: Understanding conversations to improve productivity; Vehicular technologies, waste management and safer forests; and Improving machine learning and applications in healthcare.

AIDA Webinar Series

Webinar #1

Integrated Risk Management on 5G

December 7, 2021
3 p.m. (UTC)

Promoted by: Carnegie Mellon Portugal and AIDA

More at: www.aida.inesctec.pt

Between December 2021 and September 2022, CMU Portugal Program and the Large Scale Collaborative project coordination of [AIDA](#) will host a series of five (5) webinars on improving 5G risk management, gathering leading experts from academia to industry involved with the project.

The first Webinar will take place on December 7 at 3pm (UTC). It will be hosted by [Carlos Martins](#) and [Pedro Fidalgo](#) from the project's leading company [Mobileum](#) and moderated by [José Orlando Pereira](#) (Senior Researcher at INESC TEC and Professor at UMinho).

[Registration](#) is free but mandatory to access the Zoom Webinar.

CMU Portugal welcomes its Ph.D. students on Pittsburgh Campus

On October 7th, the CMU Portugal Program held its 2021 Fall Welcome Back Lunch on campus at Carnegie Mellon University. Dual Degree students from five different departments attended the event including Computer Science, Language Technologies Institute, Software Engineering, Electrical and Computer Engineering and Engineering and Public Policy. The CMU Portugal Program currently has 18 students on CMU's campus this semester, one of the largest numbers ever.

In the Media: Interview with Ana Paiva – “90 Segundos de Ciência”

Ana Paiva, Full Professor at [Instituto Superior Técnico](#) and [GAIPS Group](#) Coordinator from [INESC ID](#), is currently leading the CMU Portugal Exploratory Research Project (ERP) “AGENTS – Automatic generation of humor for social robots”, which started under CMU Portugal 2019 ERP Call. The researcher was interviewed by [90 Segundos de Ciência](#) about her research that is working to give robots the ability to generate humor and improve their interaction with humans.

Inside Story: Maria Casimiro Summer Internship at Feedzai

Maria da Loura Casimiro is a CMU Portugal Dual Degree Ph.D. student in Software Engineering at INESC-ID/Instituto Superior Técnico and the Institute for Software Research at CMU. She started her Ph.D. in 2019 shortly after completing a MSc. in Electrical and Computer Engineering. This year, she presented her work on “Self-Adaptive Machine Learning” under a meeting promoted by CMU Portugal Large Scale Project CAMELOT led by Feedzai and ended up being

invited to do a summer internship at the ICT Company.

Manuela Veloso awarded the title of Doctor Honoris Causa by the University of Bordeaux

Manuela Veloso, a world renowned computer scientist and AI researcher and a Carnegie Mellon Portugal Faculty member since the launch of the partnership in 2006, was awarded the title of Doctor Honoris Causa by the University of Bordeaux (Université de Bordeaux). In her acceptance speech, Manuela Veloso spoke about how she began doing research in AI and robotics, and highlighted the launch of RoboCup to foster worldwide research and competitions in robot soccer, an innovative initiative started in the mid 1990s, for which she was a co-founder.

CMU Portugal among the Winners of the Babbage Innovation Awards 2021

The inaugural edition of the Babbage Industrial Innovation Policy Awards 2021 supported by the University of Cambridge, counted with two winners from the CMU Portugal Program. Jaime Bonnin Roca, Alumnus in Engineering and Public Policy (EPP) was one of the three “joint winners” and the work of Afonso Amaral, Dual Degree Ph.D student in EPP, was one of the seven “highly commended” papers.
