Dr. Mary Ellen O'Toole, of the Department of Biology, recently spoke to The Guardian on Prince Andrew's legal troubles. O'Toole comments on Prince Andrew's relationship with Jeffrey Epstein and how it may negatively affect the royal family.

The need for innovative learning opportunities has never been more important than during times of pandemic and uncertainty. More than ever, we should be looking beyond our unimaginable fear of a global pandemic, bolstered by peace and hope.

The quote, "Education is the most powerful weapon you can use to change the world," by Nelson Mandela, the great anti-apartheid revolutionary, Nobel Peace Prize-winning president of South Africa, included as a way to motivate against difficult circumstances.

The Mason Science Series continues its virtual offerings for 2020-21 with a talk on Modern Scientific Approaches for Studying the Time Since Death by Dr. Monique van Hoek on Tuesday, December 8, 2020. Registration is required.

The Mason Science Communitytet the next virtual discussion, this year's Mason Science Series is in full swing. Dean Fernando Miralles-Wilhelm will host the next virtual discussion, on October 29, 2020, featuring guest speakers.

Mandela also said, "I am convinced that if we wanted to we could create a world of love and peace and hope and joy."

"Hope helps us stay the course. Of inspiration. Unprecedented times. These sentiments appear on our t-shirts, stickers, and social media channels as a means of support."

Throughout 2020, we have looked beyond our unimaginable fear of a global pandemic, bolstered by peace and hope. These sentiments appear on our t-shirts, stickers, and social media channels as a means of support. Of inspiration. Unprecedented times.
