Engage with the Mason Sustainability Council and share your thoughts about the future of climate action at the Climate Action Plan Townhall. Your insights will be collated along with insights gathered from interviews and focus groups to inform the components of Mason’s Strategic Plan. Have your voice heard in the development of Mason’s Strategic Plan. Information gathered from this survey will be made public in February 2022.

A Mason Faculty Search has been initiated to find a Fitts-William Professor of Economics. The Mason community is encouraged to visit the posting site to familiarize themselves with the role and qualifications. The interviews and focus group sessions are scheduled for December 10, 2021, with a registration link and candidate’s resume. After registering, you must pre-register for each presentation individually. An email announcement for each candidate will be sent to faculty, staff, and students on Thursday with a registration link and candidate’s resume. The search is scheduled to take place December 10, 2021, from 11 a.m. to noon; 12:30 to 1:30 p.m.; 3:30 to 3:30 p.m.

You can ask questions during the presentations at Mason’s 2021 Fall Virtual Celebration of Student Scholarship. The Office of Student Scholarship, Creative Activities and Research (OSCAR) holds its Fall Virtual Celebration of Student Scholarship from Dec. 9-10. Check out the pre-recorded presentations by Mason scholars and ask them questions.

Join fellow faculty and staff for Mason’s 2021 holiday party on the Fairfax Campus. Enjoy food, music, games, and prizes. The Mason Holiday Party - Fairfax Campus is scheduled for December 9-10, 2021.

Read more about Mason’s Potomac Science Center. Mason physicists Ziheng Sun and Robert DeArdo, along with graduate student Darby Pochtar and Sarah Greenberg, and several Mason students are the focus of research being conducted at Mason’s Potomac Science Center.

The invasion of the body snatchers is the theme of research being conducted at Mason’s Potomac Science Center. More on her research with Amy Fowler, assistant professor of Environmental Science and Policy. The study, “Synthesis of paracrystalline diamond,” was published in the multidisciplinary science journal, Nature Astronomy. Mason physicist part of research team to discover uniquely structured carbon material.

Find out about their contributions in addition to public recognition and a certificate, each recipient received $1000. On Monday, Dean Fernando Miralles-Wilhelm honored 11 faculty and staff for their service during the past year. Our first issue of 2022 will be Wednesday, January 19.

After all, we have much to celebrate. But at the college’s Celebration of Success this week, we did just that to meaningfully recognize members of our team who have made significant contributions to our shared success during this very difficult year. Our annual Celebration of Success is a time to reflect, as well as a celebration of what we’ve achieved. And it’s a time for us to reaffirm our commitment to Mason’s mission.

This is our way of saying thank you all for a great year. And it’s an opportunity for us to reconnect with our Mason family outside of our everyday work lives. So we’ll keep the celebration going each day throughout the week with a daily prize raffle for all to join in and enjoy the fun. For the first time in the history of the Celebration of Success, you don’t need to be present to win. We can share it with you, recounting the day with tons of pictures and stories. All can check the website to find out what we’re celebrating each day and who our winners are. All can join in on our Facebook Live celebration on Mason TV. And all can share our stories on our social media accounts.

Thank you all for a great year.
