In the files section of your OrgSync portal, you can store folders, files, and pictures, organize them however you want, and “share” with whatever members you want.

The Google Drive part ties in with the “Files” section in every organization’s OrgSync portal. We always tell students that OrgSync is a combination of Facebook and Google Drive. When you upload a file, it will automatically show up in a link that you can send to all members. Students are allowed to upload files of any size, and the limit only comes with storage.
