The Mason Science Community

In the news

A new dawn and a new day

Join us for the Mason at 50 Celebration on March 4, 2022, to kick off the festivities. The celebration will feature a 45-minute virtual forum with President Neil Theobald, the Mason Board of Visitors, and the Mason Board of Trustees. The forum will start at 10 a.m. PST and will be followed by a 90-minute celebration with keynote speakers and interactive activities. The Mason at 50 Celebration is a momentous occasion that marks the University's 50th year of excellence and achievement.

MASON SCIENCE COMMUNITY

Science Undergraduate Research Colloquium

The Mason Science Community is excited to announce that the Science Undergraduate Research Colloquium is scheduled for Thursday, March 10, 2022, from 2 to 4 p.m. All undergraduate students engaged in undergraduate research at any level in Science fields are encouraged to attend. The colloquium is a great opportunity for students to present their research and to network with other students and faculty members.

RESEARCH & DISCOVERY

Carolyn's career: A friend to coyotes

Carolyn James, Adjunct Professor of Biology, is a friend to coyotes. She has been working with coyotes for over 20 years and has written extensively about their behavior and ecology. Carolyn is a member of the Virginia Coyote Project, which aims to study coyotes in the Virginia Wildlife Management Area. She is also the author of the book "Coyotes: A Guide for Virginia Wildlife Managers."

IN THE NEWS

Mason's recognition of the many dedicated

India Education Diary

India Education Diary is a platform that helps students in India to study abroad in the United States. Mason University is one of the universities that recently highlighted India Education Diary in its efforts to promote education in India. The university’s recognition of India Education Diary is a testament to the growing relationships between India and the United States.
