**January Hot Topic:**

IPPS is excited to announce the launch of a new monthly meeting series, with the first meeting scheduled for January 27th from 11 am to 12 pm on Zoom. This meeting will feature a 15-minute Q&A at the end of each meeting. Attendees will have the opportunity to participate in the discussion and provide feedback. If you have any questions or suggestions for upcoming topics, please reach out to the IPPS team.

**Known Transitional Issues**

In an effort to protect production reports, as the Oracle BI team implements new report development in support of API integrations using NiFi, there will be some transitional issues. These include...

- Lockdown on DEV4
- Deadline for migration of development reports
- All development reports will be moved to DEV5
- Available for Budget Preparers
- New Service Offering - Oracle BI Catalog Migration Request

**Oracle Budget: Introduction to Entering Core and Non-Core Funded Budgets**

UCSD Budget Preparers can prepare for live budgeting by reviewing a series of webinars and resources. Attendees will have the opportunity to participate in the presentation and ask questions. If you have any questions or need further assistance, please contact the Budget & Finance team.

**Reimbursement for Virtual Conferences**

Concur Travel & Expense is the preferred payment method for virtual conference registration. If you paid for the registration out-of-pocket and there are no travel expenses, you will need to create a Reimbursement for Virtual Conferences report. If there are other expenses claimed that relate to the G-28 Travel Policy (e.g., airfare, lodging), you will need to create a Concur Request. This will create a negative commitment line on your project WBS and submit your Mileage Expense Report after 2/1.

**Sponsored Projects Converted Revenue Update**
