CREF Compost Research Scholarship

Deadline: April 15, 2022

Mason students are invited to join the CREF Summer Research Experience. Two research sessions are scheduled:

- Tues. March 22, 2022, 4:30pm
- Wed. March 23, 2022, 4:30pm

The Summer Research Experience is an invitational program for Mason students to engage with the CREF research agenda and to explore opportunities and interests related to composting science. Students who participate in the program will: make connections with CREF researchers; develop professional and technical skills; and build interdisciplinary research and networking opportunities.

CREF research session.

Invitation to present research findings at a US Composting Council Annual Conference during a Research Poster Session.

Learn more about the scholarship requirements and to apply:

- Deadline: April 15, 2022
- CREF Summer Research Experience
- Program Website: [CREF Summer Research Experience](https://cref.masonlive.msu.edu/summer-research-experience)
- Application: [Application](https://cref.masonlive.msu.edu/summer-research-experience)

**Program Objectives:**

- To provide opportunities for Mason students to engage with the CREF research agenda
- To explore opportunities and interests related to composting science
- To make connections with CREF researchers
- To develop professional and technical skills
- To build interdisciplinary research and networking opportunities

**Research Opportunities:**

- CREF research projects related to composting science
- Opportunities to present research findings at a US Composting Council Annual Conference

**Schedule:**

- Tues. March 22, 2022, 4:30pm
- Wed. March 23, 2022, 4:30pm

**Program Details:**

- Program Website: [CREF Summer Research Experience](https://cref.masonlive.msu.edu/summer-research-experience)
- Application: [Application](https://cref.masonlive.msu.edu/summer-research-experience)

**Contact:**

- Program Manager: Matt Byrnes
- Email: MByrnes@gmu.edu
- Phone: 703-993-6767

**Additional Information:**

- Mason students interested in participation should consult with their advisor to determine the relevance of the research to academic plans.
- Students are expected to present research findings at the US Composting Council Annual Conference during the summer of 2022.
