

May 2025

Congratulations to the class of 2025. The Office of Undergraduate Research is proud of the hundreds of students who participate in research earning an undergraduate research scholar designation, honors degrees, completed capstones, internships, and funded research opportunities like UROP and SPUR. We have seen the positive impact of research on graduation rates, where 94% of students funded by OUR graduate in 6 years. And we know that research experiences bode well with job opportunities with 80% of students who participate in research finding employment within a year after graduating. But it is not just about the degrees and the jobs. We know that research and the work towards graduation is made possible because of the people, connections, ideas, and experiences made possible here at the U. On behalf of the Office of Undergraduate Research team and family, we congratulate our 2025 graduates. May your inquiries, skills, and connections made possible through research take you far in your journeys beyond the U.
