**New Requirement for Journal Entries**

This refers specifically to the budget developed in the Oracle Procurement & Payables (Proa) system. It is not yet loaded to PPM. The Project/Task Budgets developed in EPBCS are not yet loaded to PPM. Stay tuned!

**Oracle Production Environment Outage**

The FY22 Final Budget is now visible in the Oracle production environment. The outage is expected to begin at 10:00pm on October 8 and last until 1:00am on October 9. This outage is expected to cause significant delays in the budgeting process for the upcoming fiscal year. During this time, you may experience issues with accessing the budgeting tools and related data. Please plan accordingly and anticipate potential disruptions.
