The online application can be found at: [Online Application](#).

**EnergyTech UP**

Students interested in learning about cutting-edge clean energy tech, take note: The next round of EnergyTech UP is open for applications! This program aims to give students a chance to make an impact and learn more about clean energy technologies through the development of a proposal for a clean energy product or service.

- **Propose a strategy for commercialization** and compete for a share of $370,000!
- **Learn how to take an idea and turn it into a vision** that can be commercialized.
- **Specialized in engineering or scientific topics** a chance to make an impact and learn more about clean energy technologies.

**Pre-Application Deadline:** January 19, 2023 at 5PM ET

**Deadline:** January 12, 2023

**For More Information:** visit the [EnergyTech UP website](#)

---

**Network Catalyst Grants**

The George Washington University-based [Network in Sustainability Science](#) (NISS) is part of the [Geographic Resolution in July 2023](#), with a team of naturalists, photo instructors, and environmental storytelling by college students, and our fifth sponsored by partner Lindblad.

Network in Sustainability Science is a tool for you to find others with complementing expertise and for partnerships on applied research projects. Together, fellows and partner organizations will support faculty teams who wish to engage external partners in applied research to address current problems facing the United States government.

**MITRE Capstones Project Portal**

As part of its University Innovation Exchange (UIX) initiative, MITRE is partnering with George Mason University's office of Sustainability to build a network of university faculty and students to browse, select, and execute capstone projects with career-building opportunities, and learn about key elements of successful proposals.

**Fellowships**

In Summer 2023, Fellowships are available with the [Woodrow Wilson Center: Environmental Change](#) and [Faith Alliance](#) and [American Bird Conservancy](#) for the 2023 Sustainability Summer Fellowships for Graduate Research Partnerships program. These fellowships will support use-inspired research in sustainability science and resilience aligned with UN SDGs.

**Office of University Events**

[Faculty Matters Workshop – Grant Seeking and Grant Writing 101](#) [here](https://gmu.zoom.us/meeting/register/tJEpcOuqpj4pEt1WUVLHqzX1ehxT-ssqATF4) on Thursday, January 26 from 2:00-3:00 pm.

---

**DMREF**

**Designing Materials to Revolutionize and Engineer our Future**

DMREF is dedicated to developing new materials for a range of applications such as clean energy, carbon capture, and storage; next-generation medicine; advanced manufacturing; and resilient infrastructure. DMREF is a multi-institutional initiative funded by the Department of Energy Office of Basic Energy Sciences and administered by the [Berkeley Lab](#).

**Pre-Application Deadline:** January 19, 2023 at 5PM ET

**Deadline:** January 12, 2023

**For More Information:** visit the [DMREF website](#)

---

**BER**

**Basic Energy Sciences**

BER’s mission is to support fundamental research in the physical, environmental, and life sciences; to enhance the nation’s scientific and technological leadership; and to support the development of the scientific workforce. BER supports basic scientific research that advances understanding of complex biological, Earth, and environmental systems for energy and climate resiliency, particularly by underrepresented or vulnerable communities.

**Pre-Application Deadline:** January 19, 2023 at 5PM ET

**Deadline:** January 12, 2023

**For More Information:** visit the [BER website](#)

---

**GSS**

**Grants to Study Sustainability**

The GSS application process is open until January 15, 2023. GSS awards are for the full academic year, with planning grants available to support project development. Past grants have supported projects on topics such as climate change and COVID-19 pandemic impacts, safeguard cultural resources, and foster community engagement.

**Pre-Application Deadline:** January 19, 2023 at 5PM ET

**Deadline:** January 12, 2023

**For More Information:** visit the [GSS website](#)

---

**Office of Sustainability**

[Office of Sustainability](#)

is a platform for university faculty and students to browse, select, and execute capstone projects with career-building opportunities, and learn about key elements of successful proposals.

**For More Information:** visit the [Office of Sustainability website](#)
