It's a great time to be in SCIENCE!

THE FACE OF SCIENCE: Tarah O'Sullivan

Tarah O'Sullivan, mother of two children with rare genetic diseases, has returned to Clemson University determined to help children with rare genetic diseases.

Alumni Spotlight: Matthew Troutman

Matthew Troutman is a music education and music therapy major. As a high school student, he participated in the Clemson University-Missouri Science and Engineering Magnet Program, which provides college-level experiences to students in grades 10-12. Now, he is pursuing a career as a music therapist.

MLK Award for Excellence in Service: Kinsey Meggett

Kinsey Meggett is the daughter of Dr. James P. Clements, University President. She is a student in the College of Science and is the recipient of the Martin Luther King Jr. MLK Award for Excellence in Service.

Student Engagement: Tigers on Call 2019

This year's networking event brought more than 50 Clemson alumni and friends who work in health-care fields together with more than 200 students at the Hendrix Student Center on campus for panel and roundtable discussions, a mock MCAT exam, and casual networking opportunities. Students could also accompany pre-health fair.

Renowned scientist is coming to campus

Kinsey Meggett, a senior studying biochemistry in the College of Science, was chosen as this year's student recipient. Meggett is a long-time volunteer for the ClemsonLIFE program, which provides a college experience for students with developmental disabilities. Meggett found a passion for the program, which made her look at aspects of her own life from a different perspective and inspired her to become a mentor. She now is president of ClemsonLIFE's Executive board.

Student Engagement: Viva Wine Bar — 168 Exchange St., Pendleton

Feb. 25: 6:30 p.m. Students Change the World and Themselves

Feb. 13: 100 Hardin Hall, 1:30 p.m. William Kimler

Feb. 12: Freeman Hall, 2:30 p.m. with Elaine Ostrander

Jan. 31: Here are some upcoming events and activities in the College of Science.

Here's what's happening around the College of Science.

Here are some upcoming events and activities in the College of Science.

Physics professor's perspective article appears in the journal Science

New grant enables Clemson researcher to further combat widespread parasitic disease

Clemson mathematician helps deepen understanding of Earth's mysterious mantle

Clemson materials research in quantum computing may lead to computational speeds never seen before

Clemson geneticists identify small molecules that are potential indicators for disease

Clemson world record-holding sprinter, Olympic medalist
