Here are some upcoming events and activities in the College of Science.

**MORE COLLEGE OF SCIENCE EVENTS**

**THE FACE OF SCIENCE:** Tarah O'Sullivan

Tarah O'Sullivan, mother of two children with a rare genetic disease, has returned to Clemson geneticists to identify small molecules that are potential indicators for disease never seen before.

**THE FACE OF SCIENCE:** Elaine Ostrander

Elaine Ostrander, Ph.D., will present a seminar titled "How to Build a Dog in 2,392,715,236 Simple Steps," in Freeman Hall, Room 078, at 2:30 p.m. Jan. 31.

**ALUMNI SPOTLIGHT:** Matthew Troutman

Matthew Troutman, a student working in pre-college physics education, was one of only a few to be selected for the Clemson University Tandem Tinkering Team, a group of students charged with teaching others the skills they've learned. Troutman is using his experience so much that he changed his career path from astrophysics research to pre-college education and leadership.

**MLK Award for Excellence in Service:** Kinsey Meggett

Renowned scientist is mentor. She now is president of ClemsonLIFE’s Executive board. Kinsey Meggett, a senior studying biochemistry and developmental disabilities, provides a college experience for students with disabilities. Meggett found a passion for the program, which made her look at aspects of her own life from a different perspective and inspired her to become a volunteer for the ClemsonLIFE program, which accompanied pre-health fair. This year's networking event brought more than 50 Clemson students, and the general public. The event is free and open to faculty, staff, students, and friends of the College.

This year's student recipient. Meggett is a long-time volunteer for the ClemsonLIFE program, which provides a college experience for students with developmental disabilities. Meggett was chosen as this year's student recipient.
