Note from the Chair

Our faculty, staff and students are set on thriving in spite of a pandemic and in response to our unique circumstances, we made it happen.

Success comes down to how we respond as individuals and how we come together as a team. It takes all of us working together.

The Clemson experience would be nothing without you.

We are so proud of all our Tigers.

Herbatarian renovation provides new home for global collection of specimens

A much-needed renovation provides new home for the Clemson University Herbarium, part of the Department of Biological Sciences. The project was made possible by funding from the LeGrand McIver Sparks '41 and Mary B. Sears Sparks Endowment (A Class of 1941 Initiative), the Professor John E. Fairey III Quasi-Endowment, the Bob and Betsy Campbell Museum of Natural History. The Herbarium houses about 100,000 collection of priceless specimens. A much-needed renovation has given new life to the Clemson University Herbarium, part of the Department of Biological Sciences.

Undergraduates win national scholarships!

Undergraduates Chris Moss, Riley Garvey and Kori Hays were awarded prestigious scholarships this fall to help deliver these experiences. In addition, our newly hired faculty Cassandra May, Ph.D., this fall to help deliver these experiences. In addition, our newly hired faculty Cassandra May, Ph.D., this fall to help deliver these experiences.
