What a year!

The past year has been truly exceptional. It is a joy to know that our students are making a difference around the globe. A testament to the impact of education at Clemson, our students have continued to achieve outstanding success. This year, we are proud to announce that three outstanding students from the College of Science have won the 2019 Barry M. Goldwater Scholarship, a premier national undergraduate award in the fields of mathematics, natural sciences, and engineering.

Three SCIENCE students win Goldwater Scholarships

The Goldwater Scholarship is one of the most prestigious undergraduate awards in the United States. It recognizes students who have demonstrated exceptional academic excellence and have the potential to contribute significantly to their fields. This year, the College of Science is honored to have three recipients.

Barry M. Goldwater Scholarship recipients for 2019 are:

- **Rami Major**, a Senior in Genetics, Philosophy, and Psychology.
- **Benjamin Slimmer**, a Senior in Biology.
- **Erin Mihealsick**, a Junior in Biology.

These students have shown remarkable dedication and commitment to their studies, and we are proud to celebrate their achievements.

International recognition of our students continues to elevate Clemson science.

As we look back at the past year, we are reminded of the significance of our students’ accomplishments. The success of these three recipients is a reflection of the high standards and excellence that are expected of our students. We are confident that these students will continue to make a positive impact in their respective fields.

Go Tigers!
