What a year!

As I shook each SCIENCE graduate's hand, I was reminded that the holy grail at Clemson is the signature student experience. I hope that this academic year exceeded even your highest expectations. If you graduated this spring – congratulations! We welcome you into the Clemson Alumni family and look forward to your continued engagement with SCIENCE. Stay in touch so we can follow all of your accomplishments! Returning students: whether you are studying abroad, interning, taking classes, conducting research or just getting some rest and relaxation – enjoy the summer! We look forward to seeing you back on campus in August.

Three SCIENCE students win Goldwater Scholarships

The College of Science is proud to announce that two of our students – Barry M. Goldwater Scholarship winners – and one of our BioSci doctoral scholars – have been named Among the 2019 Barry M. Goldwater Scholarship recipients are Rami Major and Rhett Rautsaw. In addition to the Barry M. Goldwater Scholarship, a premier national undergraduate award in the fields of mathematics, natural sciences and engineering.

SCIENCE honours outstanding students

The College of Science honored its outstanding undergraduate and graduate students April 10 at the 2019 University Spring Awards Ceremony. An assemblage of standout students received a variety of College awards. National and international recognition of our students continues to elevate Clemson science. Several undergraduate and graduate students in SCIENCE won awards during the event, which featured food, photos and an uplifting video. Attend a spring celebration, officer commissioning, doctoral hooding, and finally commencement! This spring, the College of Science honored its outstanding undergraduate and graduate students April 10 at the 2019 University Spring Awards Ceremony. An assemblage of standout students received a variety of College awards. National and international recognition of our students continues to elevate Clemson science. Several undergraduate and graduate students in SCIENCE won awards during the event, which featured food, photos and an uplifting video.

Student earns worldwide recognition

Doctoral student Rhett Rautsaw is one of just five scientists to receive the 2019 BioOne Ambassador Award. Rautsaw was recognized for his work in the area of synthetic biology and his engagement with the scientific community. The BioOne Ambassador Award recognizes an individual’s commitment to open access and open data in the sciences.
