What a year!

Here’s what’s happening around the College of Science.

Student earns worldwide recognition

Doctoral student Rhett Rautsaw was one of only five scientists in the world to receive the 2019 BioOne Ambassador Award.

Go Tigers!

What a year! Thank you – each and every one of you – for your aspiration, inspiration, and hard work. We all expect great things from you – and you deliver.

Enjoy the summer! We look forward to seeing you back on campus in August.

We can follow all of your accomplishments! Returning students: whether you are studying abroad, interning, taking classes, conducting research or just getting some rest and relaxation – we can follow all of your accomplishments!

Alumni family and look forward to your continued engagement with SCIENCE. Stay in touch so that we can continue to support you.

As I shook each SCIENCE graduate's hand, I was reminded that the holy grail at Clemson is the signature student experience. I hope that this academic year exceeded even your highest expectations. If you graduated this spring – congratulations! We welcome you into the Clemson alumni family.

Genetics major wins 2019 Norris Medal

Three SCIENCE students win Goldwater Scholarships

The College of Science honored its outstanding undergraduates and graduate students April 10 at the College Awards Ceremony, an event that celebrates and recognizes the diversity of students who make the College of Science the leader that it is.
