Three SCIENCE students win Goldwater Scholarships

Three outstanding College of Science students are Clemson University's winners of the 2019 Barry M. Goldwater Scholarship, a premier national undergraduate award in the fields of mathematics, natural sciences and engineering.

Rhett Rautsaw, a senior majoring in biological sciences, is one of the five Goldwater Scholars. In order to win the award, students were judged based on their academic achievements and plans for continuing their education.

The other two students are Ben Slimmer, a junior majoring in chemical engineering, and Laura McCann, a junior majoring in physical sciences.

Genetica honors outstanding students

The College of Science honored its outstanding undergraduate and graduate students April 10 at the Madren Conference Center. An assemblage of standout students received a variety of awards during the event, which featured food, photos and an uplifting video.

Three SCIENCE students win Goldwater Scholarships

AUG. 21: Clemson University hosts ‘Be a T.I.G.E.R. Field Day’ before Clemson Football Spring Game

Nobel laureate Sir Fraser Stoddart shares lessons on science, careers

AUG. 20: Chemistry’s Dan Whitehead receives prestigious innovation award

AUG. 19: Superhero scientist: Clemson quantum physicist featured in ComicBook.com

AUG. 17: World-class data science server to amplify Clemson’s supercomputer

AUG. 15: Chemistry professor Ken Marcus wins Researcher of Year award

AUG. 14: Center for Human Genetics continues to unravel how genes impact drug use and addiction

AUG. 9: Clemson medical center completes first health mission program in Costa Rica

AUG. 8: Clemson University celebrates first health mission program in Costa Rica

JULY 14-27: Summer graduation at Littlejohn Coliseum

JUNE 23-JULY 6: Summer doctoral hooding ceremony at Brooks Center

JUNE 13-JULY 13: FAMU-FSU College of Medicine’s Fall classes begin

JUNE 2-15: First health mission program in Costa Rica

MAY 19-JUNE 23: Second health mission program in Costa Rica

What a year!

Here’s what’s happening around the College of Science.

Three SCIENCE students win Goldwater Scholarships

Three outstanding College of Science students are Clemson University’s winners of the 2019 Barry M. Goldwater Scholarship, a premier national undergraduate award in the fields of mathematics, natural sciences and engineering. It is the world’s largest scholarship program in these fields.

Rhett Rautsaw, a senior majoring in biological sciences, is one of the five Goldwater Scholars. In order to win the award, students were judged based on their academic achievements and plans for continuing their education.

The other two students are Ben Slimmer, a junior majoring in chemical engineering, and Laura McCann, a junior majoring in physical sciences.

Genetica major wins 2019 Norris Medal

Clemson University grants the Norris Medal each year to a scientist or student whose research has made an outstanding contribution to the field of genetic and molecular analysis.

Congratulations to Ben Slimmer, a sophomore chemistry major, who was awarded the Norris Medal.

Slimmer, along with his research team, has made contributions to several genetic research projects.

Doctoral student Rhett Rautsaw is one of just five scientists to receive the 2019 BioOne Ambassador Award.

Student earns worldwide recognition

Congratulations to Rami Major, a 2019 graduate of the College of Science, who won the 2019 Norris Medal as the best all-around graduating senior at Clemson University. Major was selected from a group of 200 exceptional graduating seniors for his leadership, service to Clemson, commitment and hard work.
