What a year!

The spring semester officially ended April 15, as each of our graduating seniors received their diploma and advanced to the next step in their education. We expect many of you to be studying abroad, interning, taking classes, conducting research or just getting some rest and relaxation – we can follow all of your accomplishments! Returning students: whether you are studying abroad, interning, taking classes, conducting research or just getting some rest and relaxation – we can follow all of your accomplishments! Returning students: whether you are studying abroad, interning, taking classes, conducting research or just getting some rest and relaxation – we can follow all of your accomplishments!

The first week of May was a month of celebration, officer commissioning, doctoral hooding, and finally commencement! This spring, three of our biochemistry students – Carlos Garcia, Kerry Smith, and Erin Mihealsick – were among the student recipients of the 2019 BioOne Ambassador Award. Doctoral student Rhett Rautsaw is one of just five scientists to receive the 2019 Barry M. Goldwater Scholarship, a premier national undergraduate award in the fields of mathematics, natural sciences and engineering.

Three SCIENCE students win Goldwater Scholarships

The College of Science honored its outstanding undergraduate and graduate students April 10 at the 2019 University Spring Awards Ceremony. From left, Daniel Fox, Rami Major, Camille Zerfas, Adam Miller, Erin Mihealsick, Kylie Smith, Lauren Young, and Lauren Stoczynski.
