Clemson students learn lifelong lessons
In the metropolitan region of Central Arizona, Clemson pre-health students uncover seminal concepts to provide care in rural settings.

Department of Mathematical Sciences becomes School of Mathematical and Statistical Sciences
The College of Science at Clemson University has reorganized its Department of Mathematical Sciences into a School of Mathematical and Statistical Sciences, two officially recognized academic units.

Center for Mathematical Genetics receives $1.87M grant
Dr. Robert Anholt and Trudy Mackay of Clemson University's Center for Human Genetics have received $1.87 million from the National Institutes of Health to advance research aimed at significantly increasing our fundamental understanding of the complex roles molecular variations play in human disease.

Drs. Robert Anholt and Trudy Mackay of Clemson University's Center for Human Genetics have received $1.87 million from the National Institutes of Health to advance research aimed at significantly increasing our fundamental understanding of the complex roles molecular variations play in human disease.

Three Minute Thesis Competition
Can you describe your work in three minutes or less? Clemson's Graduate and Professional Students' Council has announced the 2018 Three Minute Thesis Competition, open to students from across the university. The competition is split into graduate students and Ph.D. candidates, so you don't have to be about to graduate to compete. There are three prizes in each category.

We would love to see SCIENCE students take the Clemson prize and go on to the regional contest. Participation will build skills you'll use for the rest of your career.

For more details and to register, visit the Graduate Student Council website.
