Center for Human Genetics receives $1.87M grant

With fall in full swing, there's excitement in the air! With science news, seminars, and events happening every day, there's no shortage of things to do here at Clemson. Check out what's happening around the College of Science.

Collaboration, innovation, and discovery are at the forefront of what we do here at Clemson University. Whether it's research, teaching, or community engagement, we're committed to making a positive impact in the world. From medicine to mathematics, from environmental science to engineering, our faculty and students are pushing the boundaries of knowledge every day.

With the arrival of autumn, we are excited to welcome new students and visitors to our campus. Whether you're a current student or just visiting for the first time, we invite you to explore the College of Science and see all that we have to offer.

We hope you enjoy reading this newsletter and that you find it informative. If you have any questions or comments, please don't hesitate to reach out.

Have a fun and productive semester!

Remember, there are plenty more events coming up in October and November, so make sure to check the College calendar for the latest.
