Clemson students learn lifelong lessons
In the Department of Mathematical Sciences, students and faculty alike continue to learn more about how to best provide healthcare.

Diversity in Science Seminar Series debuts
Dr. Abel Bartley, professor and associate chair of the Department of Mathematical Sciences, has been named acting director of the School of Mathematical and Statistical Sciences. Bartley, who has been on the Clemson faculty since 2017, replaces Dr. Thomas E. Gullikson, who has been a leader in the field of mathematical sciences for over three decades.

Three Minute Thesis Competition
Students can develop their communication skills by participating in the Three Minute Thesis Competition. The event is open to all students, regardless of discipline, and encourages them to communicate the significance of their research in a concise and engaging manner.

Department of Mathematical Sciences becomes School of Mathematical and Statistical Sciences
The College of Science at Clemson University has renamed the Department of Mathematical Sciences as the School of Mathematical and Statistical Sciences. The change recognizes the growth and increased prominence of the department, as well as its role in advancing the fields of mathematics and statistics.

Center for Human Genetics receives $1.87M grant
Drs. Robert Anholt and Trudy Mackay of Clemson University’s Center for Human Genetics have received $1.87 million from the National Institutes of Health to advance research aimed at significantly improving our understanding of human disease.

Sustainable Clemson students learn how to protect the planet
Students at Clemson University are learning about the importance of sustainability and how to protect the planet from the inside out.

Department of Mathematical Sciences honors students
The Department of Mathematical Sciences at Clemson University has honored several students for their academic achievements.

Clemson University celebrates 200th anniversary
Clemson University is celebrating its 200th anniversary with a series of events and programs designed to highlight the university’s rich history and its role in shaping the future.
