Here are some upcoming events and activities in the College of Science.

- **Sciences effective Oct. 31:** Mathematical Sciences has officially transformed to the School of Mathematical and Statistical Sciences. As a reflection of its growing size and reputation, the College of Science’s Department of Mathematical Sciences becomes the Department of Mathematical and Statistical Sciences.

- **Graduate to compete:** There are three prizes in each category. The Three Minute Thesis Competition is split into graduate students and Ph.D. candidates, so you don’t have to be about to graduate to compete. Each contestant must condense his or her research into a brief, engaging presentation for a non-specialist audience, using a single slide. Each contestant must also provide a title and abstract for their presentation. The competition will be held on Oct 25-26. Participation will build skills you’ll use for the rest of your career.

- **Student Government is sponsoring the Three Minute Thesis (3MT®) Competition on Oct 25-26.** Graduate students:

- **Register now for the First SCIENCE Homecoming Tailgate:** 2018 ‘Tigers on Call’ event sparks networking and mentorship.

- **Center for Mathematical Genetics receives $1.87M grant:** Drs. Robert Anholt and Trudy Mackay of Clemson University’s Center for Human Genetics have received $1.87 million from the National Institutes of Health to advance research aimed at significantly increasing our fundamental understanding of the complex roles molecular variations play in human disease.

- **Seminar Series debuts Diversity in Science:** Personal examples of their journeys to attaining their education and career goals and provide important, future guest speakers will share their college experiences with current students so that students can be exposed to real/tangible role models in STEM fields who look like them. First guest speaker is Dr. Abel Bartley, also provided examples of scientists who have paved the way for future scientists.

- **Upcoming seminars with links to register are below:**

- **Three Minute Thesis Competition:** Can you describe your work in three minutes or less? Clemson’s Graduate School is sponsoring the Three Minute Thesis (3MT®) Competition on Oct 25-26. Graduate students:

- **Find out more about SCIENCE: Visit clemson.edu/science**

- **Read more about SCIENCE: Visit clemson.edu/science**

- **CLICK HERE to our email list or unsubscribe**

- **College calendar**

- **Sign up now to receive SCIENCE newsletter updates**

- **College of Science graduate student wins nuclear technology award**

- **Department of Mathematical Sciences becomes School of Mathematical and Statistical Sciences**

- **College of Science Dean Cynthia Y. Young stands outside Martin Hall**

- **Call and had the opportunity to engage with 70 health-care providers from around South Carolina.**

- **In September, more than 120 students who aspire to become health professionals attended Tigers on Call and had the opportunity to engage with 70 health-care providers from around South Carolina.**

- **It has been great to see so many students active at SCIENCE events this year!**

- **With fall in full swing, there’s excitement in the air!**

- **Go Tigers!**

- **Have a fun and productive semester!**

- **Finally, in a couple of weeks the Upstate will be flooded with alumni and friends coming back for what they can expect during their schooling for their future careers.**

- **Last year, over 4,000 alumni and friends of the College of Science attended the Homecoming Luncheon and Gala event.**

- **Call and had the opportunity to engage with 70 health-care providers from around South Carolina.**

- **As a reflection of its growing size and reputation, the College of Science’s Department of Mathematical Sciences has officially transformed to the School of Mathematical and Statistical Sciences.**
