Here's what's happening around the College of Science.

Mathematical Sciences has officially transformed to the School of Mathematical and Statistical Sciences.

As a reflection of its growing size and reputation, the College of Science's Department of Mathematical Sciences becomes the School of Mathematical and Statistical Sciences. This new name reflects the department's expanded scope and the growing diversity of its fields of study. The School of Mathematical and Statistical Sciences includes the former Department of Mathematics and the Department of Statistics.

Three Minute Thesis Competition

Students compete to create a three-minute presentation of their research, highlighting its significance and impact. The competition is open to all disciplines and is a great opportunity for students to develop their communication skills.

We would love to see SCIENCE students take the Clemson prize and go on to the regional and national rounds.

Graduate students:

Three Minute Thesis Competition

Three SCIENCE faculty honored with prestigious NSF CAREER awards

2018 'Tigers on Call' event sparks networking and mentorship

College of Science graduate student wins nuclear technology award

Diversity in Science Seminar Series debuts

In efforts to encourage a culture of diversity and inclusion, Clemson and local university officials created a seminar series focused on diversity in science.

Drs. Robert Anholt and Trudy Mackay of Clemson University's Center for Human Genetics have been named acting directors of the school.
