Oracle Financials Cloud Production & Oracle Quarterly Release Service Unavailable

The Oracle Financials Cloud production site has a variable quarterly maintenance window. When a planned outage is known, rendering the system maintenance window. Users may experience temporary outages or performance issues during this time.

Budget & Finance Support promotes training, tools, and communications to take full advantage of the financial powerhouses available across campus. The system is always modernized and updated to ensure the development and use of the business tools is streamlined and supports the campus mission.

Business systems (e.g., Project Accounting, Accounting, Budgeting, Event Planning, etc.) are adjusted on a regular basis to ensure continued development and perfection of the system. As part of the modernization project, new systems and functionality are introduced and changes to existing functionality are made.

Financial Systems/Outages
Financial systems may experience temporary outages or performance issues during this time.

System Alerts
If the problem still persists, you could have a security issue. Please submit a ticket with the following information:

- Project Number
- Has the project been funded?
- Is the project new?
- How long have you been trying?
- How many times have you tried?
- If you still don't see the reports, it could be a caching issue: Navigate to where the report should be, click on Navigate-> Applications-> BI Catalog  Go to Navigator-> Financial Reporting Center. 
- If the report is not there, please check the report is added to the roadmap, you can request new reports here.
- For system maintenance updates, go to the U-Help system.
- If you still can’t find the report, please watch on-demand at your convenience.

Help make this lookup tool great!

Project Information Lookup

Consistent with all new system launches, all standard financial reports will be reviewed and a subset will be published on https://reports.ucsd.edu, with links to request access and support. The project information lookup tool (KBA-0032913) is available in the Oracle BI Reporting Center to assist users in accessing the reports. All new standard reports will be listed in the Oracle BI Catalog to allow easy access to users.

Additionally, new Project Information Lookup (KBA-0032913) has been added to the roadmap, you can request new reports here.

Over the next few weeks you will see some changes to the overall end user experience. Bookmarks, favorites and saved links may no longer work. All report access will now be managed through the Oracle BI Catalog. The following resources are available for you to learn the new cost transfer process:

- University Cost Transfer Training
- University Cost Transfer Training Overview
- University Cost Transfer Training - Section 1
- University Cost Transfer Training - Section 2
- Single Project from one Task to another Task, Single Project from one funding source to another, Non-Projects to Projects (and vice versa).

Additional training focused on common activities (reconciliation, financial reporting, corrective actions, etc.) performed by department fund managers.

View the full campus notice for a general overview of the strategy for Oracle BI Reporting at UCSD. In the meantime, if you are using the report, please refer to the link for more information.

As of 12/14, the report will be visible. See the reports? Great! Just head on back to FRC and search away! The Oracle reports will be visible. See the reports? Great! Just head on back to FRC and search away! The Oracle reports will be visible.

Additional reports or report enhancements to Oracle reports will be added to the roadmap, you can request new reports here.
