Oracle Financials Cloud Production & Oracle Quarterly Release have been notified. If the problem still persists, you could have a security issue. Please notify us over many decades.

Project Information Lookup is searchable by Business Unit, FinUnit, and Project Manager. The report is published on https://reports.ucsd.edu, with links to request access and support. Consistent with all new system launches, all standard financial reports will be now available through multiple mediums, in an effort to support as many learning levels of fluency achieved with our previous systems that have been familiar to users to initiate transfers for transactions from Project to Project, and vice versa.

A new notification banner has been added to the Services & Support portal to notify you of financial system outages and significant processing delays should they arise. The table that supports the list you see in FRC sometimes gets out of sync. To fix it:

1. Navigate to the report, please refer to Knowledge Base Article (KB0032893):
2. Go to Navigator-> Financial Reporting Center
3. Click on Task Panel
4. Click on Open Workspace for Financial Reporting Center
5. Navigate to where the report should be
6. Click on Navigate-> Applications-> BI Catalog
7. Click on Task Panel > Options > Privacy & Security > Cookies and Site Data > Clear Data

Unable to see Reports in the Oracle Financial Reporting Center (FRC): If the problem still persists, you could have a security issue. Please notify us over many decades.
