Oracle PPM Cost Transfer Feature Launches December 21

Oracle provided the following announcement:

Oracle PPM Cost Transfer Feature Launches December 21

Oracle Process Management (OPM) has just released the Oracle PPM Cost Transfer Feature (V21D.22), allowing users to initiate cost transfers between Projects or Cost Centers. In addition, Oracle PPM Cost Transfer now allows users to transfer costs through different Cost Centers.

OPM PPM Users:

Oracle PPM Cost Transfer is now available for you. To access this new feature, please:

1. Navigate to the Budget & Finance portal and search by KB#.
2. Click on Open Workspace for Financial Reporting Center.
5. In the Source tab, select the project or cost center where the costs are to be transferred from.
6. In the Destination tab, select the project or cost center where the costs are to be transferred to.
7. Click on OK to initiate the cost transfer.

Oracle ERP Users:

Oracle PPM Cost Transfer is now available for your organization. To access this new feature, please:

1. Navigate to where the report should be.
2. Click on Open Workspace for Financial Reporting Center.
5. In the Source tab, select the project or cost center where the costs are to be transferred from.
6. In the Destination tab, select the project or cost center where the costs are to be transferred to.
7. Click on OK to initiate the cost transfer.

Oracle PPM Cost Transfer is designed to bring back all projects, including those that have not been funded, into the Oracle PPM Cost Transfer Feature launch window. In the meantime, if you are using bookmarks, favorites and saved links may no longer work. All report access will now be dependent on the Oracle PPM Cost Transfer Feature launch window.

Oracle PPM Cost Transfer is available in the following versions:

OPM PPM (V21D.22)

Oracle PPM Cost Transfer is available in the following versions:

OPM PPM (V21D.22)
