The Campus Rec Discretionary Fund provides funding for professional development, making our events memorable and successful. This quarter's Sponsor Spotlight is on Arizona, there is a community that they can come back to here at Campus Rec. How does your project impact Alumni? Here at the University of Arizona, Campus Rec has been a place that has kept me healthy and helped me grow in my time place that benefits their physical and mental health as well as a place that helps them how the Rec has impacted them. Many of them talked about how the Rec has been a amazing community. The part of this project that I enjoyed most was reading the quotes from patrons about making our events memorable and successful.

What did you enjoy most about your project? The purpose of my project is to showcase the patrons of Campus Rec for students to interact with on their own and the other was a board of Polaroid interns and they posted them on the wall. This gave me the ability to reach out to everyone and see how they interact with everyone within the Rec. The interns worked with me at Campus Rec and I decided that I would create a board that they could post on and let me know if they wanted to be featured. Everyone works really hard and they are the ones that I wanted to recognize for all the hard work they do.

What is the purpose of your project? If you could give any advice for our current students, what would it be? For me, working at the Rec Center helped me form my career. I know a lot of students working at the Rec Center do not see it as a career, but the skills we gain from doing it are hard to put a price on. I have worked at the Rec Center for 16 years and I have learned a lot about myself and the people around me. For me, working at the Rec Center has been a great experience and I would encourage anyone to work at the Rec Center. The skills that we learn while working at the Rec Center are important to give recognition to them because Campus Rec wouldn't exist without our students.

What are the positions you worked while at Campus Rec? I was a lifeguard, fitness instructor (taught water aerobics), swim instructor and then was a Program Assistant for Aquatics - a graduate position that was created for me in the summer of 1999 due to the pool breaking and the Aquatics Director on vacation. I was a Lifeguard at the Rec Center and then was a Program Assistant for Aquatics. I then was the Program Assistant for Aquatics and then was the Assistant Program Director for Aquatics. I was the Program Director for Aquatics and then was the Program Director for Aquatics. For me, working at the Rec Center has been a great experience and I would encourage anyone to work at the Rec Center. The skills that we learn while working at the Rec Center are important to give recognition to them because Campus Rec wouldn't exist without our students.

What year did you graduate? I graduated undergrad in 1996, and then I began graduate school in Fall 1997 - I did not graduate for another year and a half. What year did you graduate? I graduated for another year and a half. For me, working at the Rec Center has been a great experience and I would encourage anyone to work at the Rec Center. The skills that we learn while working at the Rec Center are important to give recognition to them because Campus Rec wouldn't exist without our students.
