The Campus Rec Discretionary Fund provides funding for professional development, student staff, and much more! Our sponsors play a great role in supporting Campus Rec's mission.

Sponsor Spotlight

How does your project impact Alumni? Here at the University of Arizona, Campus Rec has been a place that has kept me healthy and helped me grow in my time here. Many of these messages resonated with me because I too feel like I have achieved my goals. The part of this project that I enjoyed most was reading the quotes from patrons about their experiences and how the Rec has impacted their lives. I also created two different boards. One was an impact board that I posted inside of Campus Recreation with quotes from patrons. The other board was a photo board that I created for the Program Assistant for Aquatics - a graduate position that was created for me in the Program Services step. I am still working with a few of those people and have a lot of amazing memories from working with them.

What is the purpose of your project? Working to pass a referendum to create the Campus Rec Program Fee that would allow for the expansion of Campus Rec. Growing and building various programs. Evolving the sports club program and bringing clubs onto campus that were not previously available. Working with a great team at Campus Recreation and assisting the community.

What is your most memorable moment while working at Campus Rec? 23 years ago, I was hired to work at the UA Wellness and Recreation Center. I was not sure what to expect, but I fell in love with my position and all of the people I worked with. I worked as the Intramural Sports Coordinator, 1992-1995, and Recreational Sports and Services for six years until 2000. I left in May 2000 - at the end of the spring semester - when I got a full-time facilities position with the University of Arizona Technology Park. I think my most memorable moment was when I was able to return to Campus Rec and work back on the Program Services step. It was great to see all of the changes that had taken place and to be a part of them.

What were the positions you worked while at Campus Rec? Intramural Sports Coordinator, 1992-1995, and Recreational Sports and Services for six years until 2000.

What is your most memorable moment while working at Campus Rec? Working with a great team at Campus Recreation and assisting the community.

The purpose of my project is to improve the overall health and wellness of the campus community. I want to create a sustainable program that will continue to grow with us, to see the ongoing importance of Campus Rec, and to continue to grow with us. Our hope is that those same students, now as alumni, will continue to use our services and efforts to make this department better. Campus Rec helps students achieve their goals. Our active student members are incredibly important to us! We realize their past success with you.

If you could give any advice for our current students, what would it be? Enjoy this time and nurture your relationships. Keep in touch—your current supervisors will be involved with the bottom level of the newly designed Bear Center. I probably enjoy that aspect of my job the most! I would love to assist us in the future!
