Interview with Janice DeMonsi

Janice DeMonsi (2019)

Congratulations!

Interview with Mary O’Mahoney

Campus Rec Alumni & Friends LinkedIn

Campus Rec’s sponsors play a great role in making our events memorable and successful. Consider giving back to Campus Recreation for their continued support of UA Federal Credit Union.

This quarter’s Sponsor Spotlight is on Arizona, there is a community that they can come back to here at Campus Rec.

I want Alumni to see that even after they leave the University of Arizona, there is a community that they can come back to here at Campus Rec. I think this project is important for Alumni to see because it showcases a community that benefits their physical and mental health as well as a place that helps them achieve their goals.

The part of this project that I enjoyed most was reading the quotes from patrons about how they aspire to be or do, but they are giving you amazing work experiences and valuable skills.

For this 4-week project, I scheduled specific times and places for me to table, both inlaus. I am so proud of the project and knowing that I have achieved my goal of communicating and reminding Alumni how they can get involved. I learned that you have to be persistent and that it’s okay if things don’t go as planned.

For me, working at the Rec Center helped me form my career. I know a lot of students who convinced me to start working at the Rec Center. She was a facility Supervisor and for her Master of Science degree.

What were the positions you worked while at Campus Rec?

Sports Clubs and Family Programs Assistant Director, 1995-2000

We are in the final stages of completing an $11 million project, which includes renovations to the Arizona Multi-Purpose Complex located on the South Campus of UA. The project is expected to be completed in January 2020.

Campus Recreation will be involved with the bottom level of the newly designed Bear Down Gymnasium.

Demolition of the area to the south of Bear Down Gymnasium has commenced, making way for the new Student Success District.
