I think this project is important for Alumni to see because it showcases a community that I think they can relate to. How does your project impact Alumni?

Campus Rec has been a place that has kept me healthy and helped me grow in my time on campus. Many of these messages resonated with me because I too feel like I have been able to grow in my time on campus. The part of this project that I enjoyed most was reading the quotes from patrons about their experiences with the Rec. The last aspect of this project was posting our "Humans of the Rec" pictures on Instagram. The last aspect of this project was posting our "Humans of the Rec" pictures on Instagram. We want to thank everyone who participated in the project.

The purpose of my research project was to gather quotes from patrons about their experiences with the Rec. I completed the research project by creating two different boards. One was an impact board that I posted inside of Campus Rec for students to interact with on their own and the other was a board of Polaroid pictures of our "Humans of the Rec." We want to thank everyone who participated in the project.

For questions or to suggest a story idea, email Troy Vaughn.

Congratulations to our 2019 NIRSA Award Recipient - Mary O'Mahoney (2018) and Janice DeMonsi (2019) - for their杰出贡献 to Campus Rec.

What was your most enjoyable aspect of your research project?

For me, working at the Rec Center helped me form my career. I know a lot of students who were also able to find their career path at the Rec Center. The positions that you have in Campus Recreation may not be what you would expect, but they can be very useful in the future.

What year did you graduate?

I graduated in 1989-1992. For me, working at the Rec Center helped me form my career. I know a lot of students who were also able to find their career path at the Rec Center. The positions that you have in Campus Recreation may not be what you would expect, but they can be very useful in the future.

What were the positions you worked while at Campus Rec?

I worked at various positions at the Rec Center, including membership coordinator, program director, and facilities manager. I also had the opportunity to work on several special projects, including creating the Visa Platinum Preferred. It comes with 7.50% intro APR*, fraud protection, and much more!

What were your favorite activities to do in Tucson?

I enjoyed walking around the University of Arizona campus, especially during the fall and winter months when the leaves were changing colors. I also enjoyed attending football games at the UA Football stadium. I found the atmosphere to be exciting and enjoyable.
