Humans of the Rec

Interview with Janice DeMonsi

How does your project impact Alumni?

The part of this project that I enjoyed most was reading the quotes from patrons about how the Rec has impacted them. Many of them talked about how the Rec has been a great community.

What did you enjoy most about your project?

Creating two different boards. One was an impact board that I posted inside of Campus Rec's main office. The other board was a photo board that was created and updated throughout the quarter. I collected quotes and photos online and created a Flipbook of the quotes from patrons. The Flipbook was posted online so that anyone could access it. It was very important to give recognition to them because Campus Rec wouldn't exist without our patrons.

What is your most memorable moment while working at Campus Rec?

August 1989 is when we broke ground for the building. Being a part of building the original rec center. The week I arrived on campus in August was also when I started my job.

What are your methods/activities to achieve your goals?

I researched patrons thoughts about how the Rec has impacted them online. I worked with the Communication team to create the documents and posters that were produced for the project.

What is the purpose of your project?

The purpose of my project is to showcase the patrons of Campus Rec's committed to making a positive impact on their lives.

What did you accomplish through your project?

How has this project helped you personally?

This quarter's Sponsor Spotlight is on 89... 23 years... how long did you work at Campus Rec?... positions that you have in Campus Recreation may not be what you expected. For me, working at the Rec Center helped me form my career. I know a lot of students have no idea that they have this opportunity at the Rec Center. Many of them have some idea of what they want to do but are unsure of their career path. Working at the Rec Center was a great learning experience for me. I was a lifeguard, fitness instructor (taught water aerobics), swim instructor and then was promoted to calendar coordinator. My job duties included managing the Rec Center's schedule, coordinating intramural sports, organizing special events, and organizing educational workshops. I was also responsible for maintaining the Rec Center's social media accounts and creating marketing materials. My favorite part of the job was meeting new people and learning about their experiences. I was able to help many students achieve their goals and find success. I was also able to help many students find success. I was also able to help many students find success.

Education and defend it but due to work, I stopped after a year and 1/2 pursuing that. How long did you work at Campus Rec? I was a lifeguard, fitness instructor (taught water aerobics), swim instructor and then was promoted to calendar coordinator. My job duties included managing the Rec Center's schedule, coordinating intramural sports, organizing special events, and organizing educational workshops. I was also responsible for maintaining the Rec Center's social media accounts and creating marketing materials.
