The Office of the Provost is expanding UO’s learning and development resources through an enterprise membership with Academic Impressions—a higher-ed learning platform that offers resources and training articles, live and recorded webinars, and virtual conferences.

Members of the university can participate in any trainings that catch their interest. However, to offer a starting point, the provost office has recommended several categories of focus, including diversity, equity, and inclusion (DEI), faculty success, student success and leadership development.

Each Academic Leadership Newsletter going forward will include a few recommendations, starting with the following:

- **4 Essential Leadership Competencies Department Chairs Need to Lead in the New Normal** (article)
- **Time Management: Focusing on Your Priorities and Purpose** (1 hour webinar)

We’re excited to be able to offer you this resource. If you have questions about how this tool fits in with the university culture, read more on our webpage or reach out to the provost team.

If you have technical questions or would like recommendations on where to start, consider scheduling a one-on-one session with our account representative, Yianna Kappas.
