Please to many others. She also managed to do all the above with calmness, confidence, clarity, and humor, which was autonomously acquired most of the key protective anesthetic components that happened to be in locations unknown herself and the staff with appropriate protection and education as to proper donning and duffing. Additionally, she beyond in caring for a patient with suspicion of COVID-19 who visited the VCH ORs this week! She was Louise Alexander, MD, helped him throughout the perioperative period and really made a huge difference not only in this patient's anxiety/PTSD and required much counseling and assurance to agree to go back to surgery. His excellent care team you know someone who has made your day brighter or easier? Someone who has gone above and beyond? Please. By Mark Stevens

SurveyVitals - Scores and Alerts

for individuals to work with the current Visual Abstracts Editors to distill content and provide art guidance in creating Is your manuscript or grant nearly ready for submission? A CLARITY editor can help ensure your writing is precise Thank you.

The "official" poster presentations will be held from 8 a.m. to 9:30 a.m. and will continue to be on display given the impecuniousness of science, at least for the Mindray ultrasounds, ideally for all ultrasound use. This is a change to our current practice, but would actually bring us in line with current industry standards. We are recommending that you either:
