Welcome Days of Service: New Opportunities for GW Students!

We would love to see you at any of the over 50 events happening for 9/11 Day this year! So please post a message about your good deed or service on 911Day.org.

Perform your deed. Ideally, do your good deed or service this afternoon or evening to help commemorate the events of September 11, 2001.

1. On September 1, visit 911Day.org and sign-up to serve in a time slot from 5-7pm. You can volunteer as a single participant or as a group. If you are a community organization looking to table or do a community event, please sign-up here.

2. If you are a community organization looking to table or do a community event, please sign-up here. If you have come here to help me, you are wasting your time. But if you have come to help another, please know that we here in the Nashman Center -- and our friends and colleagues -- have the opportunity to serve alongside community members while building inclusive collaboration!

3. Share your deeds! We have created a list of over 50 “good deeds” you can do for 9/11 Day. These ideas are designed to help make the day of service a day of action to recognize the ingenuity of individuals and the power of collective action.

You are invited to participate in one of the many opportunities listed below. Please use the hashtags #911day, #911dayAtHome, #911dayAtSchool, and your organization’s hashtag if any. (Tag your good deed on your social media platforms)

The class will be held Tuesdays 4:10pm -6:00pm. Students will have the opportunity to work alongside community partners to understand how environmental justice intersects with social issues such as climate change, racial inequities, public health, and economic development. This course will allow students to identify an area of focus, conduct research, and in partnership with a community partner, identify a problem or issue and design solutions to help residents from marginalized or underserved communities. This course serves as a capstone experience for the Sustainability minor.

Evidence-Based Environmental Justice. Register for SUST 2097 Engage Communities to Promote Health and Sustainability. The class will be held Tuesdays 4:10pm -6:00pm. Students will have the opportunity to work alongside community partners to understand how environmental justice intersects with social issues such as climate change, racial inequities, public health, and economic development. This course will allow students to identify an area of focus, conduct research, and in partnership with a community partner, identify a problem or issue and design solutions to help residents from marginalized or underserved communities.
