

# SAN FRANCISCO HEALTH SERVICE SYSTEM

Better Every Day.

It's that time of the year when many of us begin a journey of self-improvement and well-being by [setting intentions](#) and chart a course for a healthier version of ourselves. Identify personal well-being practices to help you step into the New Year with purpose and vitality.

- **Eating healthy + Physical Activity.** Nourishing your body with healthy foods and being physically active are the cornerstones of personal well-being. Engaging in these cornerstones not only help with weight management but also reduces the risk of heart disease, improves mood, and enhances overall well-being. Learn more about [healthy eating](#) and [physical activity](#).
- **Sleep.** Sleep is often overlooked when setting New Year intentions, but it is one of the most important steps to supporting your well-being. Getting enough sleep every night boost [energy for exercise](#), enhances [productivity at work](#), and fosters creative thinking. Learning more about sleep hygiene and how to improve sleep can put you on the path to a healthier and more productive future.
- **Learning a new skill or hobby.** Engaging in a hobby or learning a new skill can improve your [mental well-being](#) by: boosting self-confidence and raising self-esteem. It can help you to build a sense of purpose and even connect with others. Explore the [SFHSS Events Calendar](#) to learn a new skill or engage in an activity that interests you.
- **Seek Help If You Need It.** Prioritize your mental health this year by reaching out for support or utilizing free [online resources](#) and [apps](#) available through your health plan. If you or a loved one is struggling with mental health issues, help is available. Contact the SFHSS Employee Assistance Program (EAP) or a clinician, [We're Here For You](#).

---

Instead of making sweeping New Year's resolutions to achieve overnight, create a few well-being practices that will have a long-lasting impact on your mental health and happiness. Start with accessing free mental health & emotional well-being apps through your health plan. Visit your health plan to learn more.
